Hi Steve - I hope you're having a nice September. I'm still getting used to your new e-mail address. To the best of your knowledge, has all the work been done as anticipated via the attached schedule? It looks like the Sept quarterly report will be coming in soon.

Regards,
-Carol-

Subject: NGC & NWIRP OU2 VPB Progress and Updated Drilling Schedule

Distribution:

Attached to this email is the July progress report and the updated vertical profile drilling report for the NGC and NWIRP OU2 Offsite Groundwater program. The DEC and NAVFAC Midlant have reviewed the periodic release of this report and will be switching to a quarterly report starting with the September 2014 progress report. If you have any questions prior to the release of any analytical and geophysical data update reports, please contact me direct.

On an administrative note, the DEC has switched from GroupWise to Microsoft Outlook as our default Email service provider this past July. Some of the email addresses in my address book may have been lost, corrupted or an old address brought up in the transfer. If corrections need to be made, or you want to be removed from this distribution, please notify me as soon as possible.

Thanks,

Steven M. Scharf, P.E.
